Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Specification

The disclosure is objected to because of the following informalities: On page 2, line 1 "of" should read - - or - - . On page 3, line 8 "obtained by me" is unclear and should not be written in first person language. Any prior patent should be referred to by inventor name and Patent Number. On page 3, line 9, "could difficult" appears to be missing language such as "be". On page 3, line 12, "breast" should be "breasts". On page 3, last line, change my garment to "the present invention". On page 4, line 16, change "warer" to - - wearer - -. On page 5, line 1 change "my invention" to - - the present invention - - . On page 9. second paragraph, line 1, change "My" to - - the present - - . In the second paragraph, penultimate line, change "my" to - - the present - - . On page 11, "Garmrnt" to garment.

Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 1 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 1, line 2 there is no antecedent basis for "said garment fabric" and the word "and" is not necessary. In regard to the "the surface" in line 3, it is not clear as to what

"surface" is being claimed. In claim 1, line 6, there is no antecedent basis for "the thickness" and "said thickness". In line 14, there is no antecedent basis for "the inner surface"; in line 15, "said skin" and in line 18, "the torso encircling portion". Also, the duplicate language after the first period in line 18 and line 19 should be deleted.

However, the claim, as best understood, has been examined on its merits.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 1 is rejected under 35 U.S.C. 102(b) as being anticipated by Henricksen (US 6,332,825).

Applicants prior patent, Henricksen (US 6,332,825) discloses the breast supporting garment with the non-slipping material located as claimed and with the thickness in the claimed range since 0.5 mm is within the previously claimed range of 0.5mm as stated in col. 2, lines 13-14. (See Henricksen, col. 3, line 15 – col. 4, line 8; col. 2, lines 13-14 and figures 1-6).

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. The cited references disclose breast covering and support garments with adhesive fasteners which adhesively contact the skin of the wearer.
